

STORY OF SJHS

A TRADITION OF EXCELLENCE

In this picture I was trying to capture how old our school is. Starting as a building with six classrooms, our school has come so far and has grown so much. Through out the years St. Joseph High School has changed locations and added on more departments and sports. The school will continue to grow and improve as time goes on.

This is a picture of the front of the school. You can see the banner that says the school motto of “A Catholic Tradition of Excellence” and the landscaping that’s in front of St. Joseph High School. In this picture I was trying to show the beauty that our school can have. (even though its hard to see sometimes)

This is a picture of some of the many trophies that are in media center of our school. I wanted to show how our school is filled with athletes. We have won many championships and titles in the past. Our sports teams are all hardworking and never give up no matter what the scoreboard says.

This is a picture of a St. Joseph car magnet. Many of the students at the school have them either on their lockers or cars. I was trying to show how our students and also teachers have school pride. We all wear St. Joseph attire and have the magnets on our cars. We are proud of our school and we show it.

This is a picture of the sign outside of the field house. Many student athletes go to the field house to lift and get stronger so they can perform better in their games. I was trying to show how hard working St. Joseph athletes are.

This is a picture of the hallway. It also shows the lockers and doors that lead to classrooms. Every student walks these halls everyday to get to classes. We stop at our lockers and we talk to our friends. In the classrooms we learn, and in the hallways we become closer to our friends.

This is a picture of the Mary statue in the parking lot that is surrounded by flowers. I was trying to show how faith based our school is. We all take a religion class every year. We attend mass all the time and we pray before every class. Our school is centered around our Catholic values.

This picture is showing that our mascot is the wildcat. At some football games we have a person in a wildcat suit dancing around. We also all have sweatshirts and t-shirts with wildcats on them.

This is our school's emblem. We wear it everyday on our polos, sweatshirts, or sweaters. It is also on all of the school's papers that they send us. The emblem represents our school.

This is a picture of the quote that is painted on the wall in the hallway of our school. It says “Enter to learn about Christ, Leave to serve him.” At St. Joseph High School we are taught just that. We come here as freshman and we are taught Catholic values. We are taught how to treat people and how to help them. When we leave here as seniors we are expected to go out into the world and use what we learned here.
